

Body Cameras

DrivePro Body 52

Transcend's DrivePro Body 52 body camera features a camera unit connected to the main unit by a flexible cable, allowing for a wide variety of attachment options. Tailor-made for law enforcement, private security, and other professionals, the DrivePro Body 52 is rugged and durable to withstand splashing water and shock. The camera features an Exmor™ image sensor to capture high-resolution images with extremely fine tonal gradation even in low light. With built-in Wi-Fi, the DrivePro Body 52 allows users to live-stream footage and snapshots to iOS and Android mobile devices.

Separate camera unit with high sensitivity image sensor

The DrivePro Body 52 is comprised of a main unit and a separate, compact camera unit, which can be securely mounted on uniforms and vests for more flexible wearing options. The camera features a wide 130° horizontal field of view, a large $f/1.8$ aperture, and an Exmor™ Sensor for high-resolution images with superb, rich color even in low light conditions.

Note: Exmor™ is a trademark of Sony Corporation.

Mounting accessories included

All necessary mounting accessories are included with the DrivePro Body 52. Officers can choose to use either the 360° rotating clip or Velcro holder to mount the camera unit on their uniform or jacket, and use the belt holster to carry the main unit on their duty belt.

Rugged and durable design

The DrivePro Body 52 is built to withstand extreme weather and conditions, making it an excellent choice for outdoor recording. It is IPX4 rated to offer protection against splashing water from any direction, and meets rigorous U.S. military drop-test standards* for shock resistance.

Body Cameras

DrivePro Body 52

Features

- Exmor™ image sensor
- Built-in Wi-Fi function for mobile live streaming
- Handy snapshot to take photos while recording a video
- Built-in battery for up to 3.5 hours long recording time

DrivePro Body Toolbox

DrivePro Body Toolbox allows you to securely manage videos and snapshots, adjust settings, format internal storage, and upgrade firmware.

DrivePro Body App

DrivePro Body App is designed for use with DrivePro Body cameras featuring Wi-Fi connectivity. Manage cameras and view recordings from your mobile device.
